HP Mauao Management	February 2009- • Waitangi day celebrations went well. 400/500 people made the journey up Mauao for the dawn service. A few minor issues, but no incidents occurred. The changes from last years event were a success and a couple of changes for next year were indentified. • Rangers are being asked more and more to provide vehicle access for summit events. This is being dealt with a access policy through the Mauao Steering Group. • Live weather reports were broadcasted off of the slopes of Mauao over the Christmas period. This is great national exposure for the Tauranga and Mount Maunganui area. • 49 Petrels were banded this year. This is a 70% increase on the best year the monitoring group have ever had. Hopefully this is due to the efforts of the Forest and Bird volunteers feeding the rat bait stations. • Good visitor numbers this summer with 127534 people walking the base track in January.	June 2009 • Visitors, Base track - April 09- 74870 May 09- 63964. Summit - April 09- 14386 May 09- 12478. • Summit upgrade, The project on the summit has gone very well. Unusual to have such large machinery on Mauao, so I was please to see them leave. 95% of the feedback has been positive. The temporary fences which are protecting the grass will be up till the spring when the couch grass starts to grow. • Mauao Care Group, The first planting happened early May with 35 volunteers turning up and planted 300 native plants. The 2nd working bee in early June. Weed control will be the main focus from now on. • Mauao Trustee's site visit, Trustee's have visited Mauao. They identified an area which they wish to have some additional plants put in. • Planting, has been completed. 5000 native plants went in. • Pest control, Targeted pindone poisoning and night shoots are continuing, with numbers being quite low at the moment. There was a report of a stoat on Mauao summit. In the last check of the mustalid traps on the petrel line there was a stoat. Hopefully this is the only one. • Forest and Bird volunteers are being kept busy as there has been an increase in rodent bait take. • Base track work, has started again with the main area to be worked on being the concrete slope. This is the hardest area for wheelchair users to get passed. • Lamb incident, The 3 lads accused of killing the sheep have denied it. The matter is in the police hands.	s 7(2)(f)(ii)
