Mauao Operational and Maintenance s 7(2)(f)(ii)	Mauao PSG - August 2006 - The upgrade of the Waikorire Track is now complete and the track has reopened much to the delight of visitors to Mauao. - Consent application has been made to undertake the slip repairs on Pilot Quay. - Members of the Mauao Steering Group met HPT staff on site to discuss HPT's position in respect to the use of shell on the base track. HPT's concern is that installing shell on the track will allow the shell middens and the track surface to integrate and contaminate the archaeological sites. The steering group will discuss alternatives to installing loose	- Numbers of visitors to the park have continued to grow over the summer period with counts exceeding 100,000 people per month. - The replacement of the last remaining stile on the base track has been well received. - An engineering report has been completed to assess the stability of the Mauao Base Track. Repair priorities have been identified and staff are currently assessing that report and will present it to the Mauao Steering Group at the next meeting on Wednesday 18th April 2007. - A renewal of the existing 3 information	s 7(2)(f)(ii)

Activity/Issues	Previous Progress Update	Current Update	Staff
	shell at its next meeting in December. • A pest control programme has been initiated in November to control rabbits on the site. • s 7(2)(f)(ii) is arranging for the removal of the 2 remaining stiles on the base track to be removed to improve pram and wheelchair access. s 7(2)(f)(ii) s 7(2)(a) - Privacy are going to undertake some work on some draft interpretation panels. These will be discussed at the December Mauao Steering Group meeting. Mauao PSG - December 2006 • Camping ground / Hot pools undergoing renovations • Soil removal from Mauao to be dispersed on Airport land • Touch Stone book launched at labour weekend s 7(2)(a) - Privacy • Waahi Tapu registration for Mauao being progressed thru HPT by Antoine Coffin • 2007 Waitangi Day Celebration - possible ownership announcement • Interpretation panel project 2007	panels has been discussed with more input from HPT than was previously included. One sign was destroyed by the slip on Pilot Quay (May 18, 2005). Current thinking is to not have many small information panels scattered around Mauao, but larger informative signs at the entrance. With an Information Kiosk potentially attached to the Hot Pool extensions, there is a lot of scope to educate the public on historical / cultural / archaeological facts, possibly with brochures to take with them. s 7(2)(f)(ii) s 7(2)(f)(ii) to continue with this project. • Shell aggregate mixes are being investigated at the OPUS laboratory to establish the best mix for use on the base track. From the Steering Group discussion, it was decided to explore the 'containing' of midden sites with timber edging, thereby differentiating midden shell from track shell. Track edging can also serve this purpose effectively.
