Meeting Date	Item	Description
3 August 2022	Chairperson's Verbal Report	Key Points: - There were two presentations to Ngā Poutiriao ō Mauao at the November 2021 hui. The first was in regard to the lizard release on Mauao, which was completed in 2022. The second was on the Oi (Grey faced petrel) colony on Mauao. Two feathers were taken from two Oi on Mauao, and these were to be used to measure stress levels found in the birds and compared with specimens from other Oi from across the North Island. - Statistics of the Oi colony were presented to the Chair, which demonstrated that the colony was healthy. Some 200-300 Oi can be found on the Norther Face of Mauao and the population is growing. - Discussion was held to monitor and protect the Oi colony (Oi are a protected and endangered species), and it is hoped that the Mauao Kaitiaki Group can be engaged in the effort. - The Community Relations team has put together a video regarding the wayfinding signage, the new cultural compass, and the local companies and craftspeople involved in the Mauao works. - Discussion was held regarding the promotion of the story of Mauao to the wider public, and all the work that has taken place on the maunga in 2021-2022. This could help connect with what TCC is doing across the city.
	Mauao Trust Verbal Report	Key points: - s 7(2)(a) - Privacy has resigned from Mauao Trust, and the Trust welcomed s 7(2)(a) - Privacy as a new member. - s 7(2)(a) - Privacy attended his first meeting for Mauao Trust at the end of July 2022, and his replacement for Ngā Poutiriao ō Mauao is

		being sought. Two candidates with very strong commitment to Ngā Poutiriao ō Mauao have been identified, and Mr Thatcher will remain in place until a replacement has been appointed. - The process of appointment of the members of Ngā Poutiriao ō Mauao involves nominations which come from iwi organisations, with final decision made by Ngā Poutiriao ō Mauao. Ngā Poutiriao ō Mauao supports that Mauao Trust appoints the members to Ngā Poutiriao ō Mauao. - A verbal update on Ngā Poutiriao ō Mauao was received by the Trust. - Mauao Trust has appointed [REDACTED] s 7(2)(a) - Privacy as an administrator.
	Event Decision-Making Framework for Mauao	Key points: - Staff have developed a draft events plan, but sought clarity and expectations regarding the type and frequency of events which are appropriate for Mauao. - There was discussion about incorporating a koha for events on Mauao, and understanding the cultural significance. - It is important to understand how events will happen in the future, including an exploration of the purpose of why these events are being run. If events are charging fees for participation, are a portion of the proceeds going to Mauao Trust? This could be an opportunity to assist with paying for maintenance and damage which may occur from events. The aim is not to stop events, but need to make sure that the health and wellbeing of Mauao is considered. - Defining an events plan will help to create certainty for the events team when dealing with applicants which will streamline the process and ensure that activities align with the values of Mauao Trust. - It was discussed that it is worth considering alternative places and spaces across TCC for events. - A wananga has been proposed to advance these conversations, identification of required personnel and agreeable time/date is ongoing.
	BOP Hang Gliding and Paragliding Association	Key points: - It was noted that the Association has the same driver, vehicle, number plate, and key holder for use of 4x4 track to carry gear to the launching site. - It was noted that there is a desire for members of the association to attend and present to Ngā Poutiriao ō Mauao's annual meeting in

		November, which follows the BOP Hang Gliding and Paragliding Associations Annual General Meeting in September. This will allow them to provide update to their activities and directly address any issues (should they occur). Concerns were raised about potential rogue paragliders who were not abiding by the Association's rules and regulations. The Trust expressed an interest in hearing from the Association about what actions would be taken if people were participating in hang gliding or paragliding activity that did not adhere to the Association's rules.
	Mauao Implementation Plan Project Updates	Key points: - A number of placemaking elements are due to be completed by the end of the year, including very visible signs which convey stories and knowledge of Mauao. Some spare signage should be available to quickly replace damaged or vandalised signs. - There was discussion regarding the involvement of Community Relations staff to assist in advertising the stories and significance of Mauao to the wider community, which is hoped will help reduce vandalism targeted at Te Reo names on the wayfinding signage. - It is noted that resting, fatality management processes, and Kaitiaki projects are all sitting with Mauao Trust, and discussion and planning is ongoing. - There was discussion regarding the establishment of a group who could perform guided walks and provide information about areas, names and features of cultural significance. This can tie in with the ongoing exploration of the cultural centre, which could feature as a meeting point and create a positive asset to promote education around Mauao. Additionally, the employment opportunities would provide further benefit. There is potential for Tourism BoP to have a role implementing guided tours, as well as advertising Tauranga's heritage and activities when cruise ships return to capture some additional tourism benefits instead of them going elsewhere. - The Waka Launching site has budget allocated in the Long-Term Plan, however no such inclusion exists at present for the cultural centre project.
	Operational Report	Key points: A significant achievement was the successful

9 November 2022		removal of exotic trees from Mauao, with 28 tonnes of material taken from the maunga. This has reduced the threat and damage to important archaeological and heritage sites on Mauao. • Rabbit control and fumigation has proven effective, with lower numbers of rabbits identified. • A plan for predator free Mauao is being developed to enhance the protection of native species on the maunga. • The Matariki ceremony was very successful, with 30 kaumatua taken to the summit of Mauao for the event. • There was discussion regarding the use of rocks along the edge of Waipatukakahu to define the area, with the idea that rocks from specific places with connection to Mauao be used. In principle, there was no objection to Mauao rock being used, but it is not yet understood if there is enough available for use that would not affect the maunga. • Port of Tauranga want to install two cameras on Mauao. Preferred location was identified for its elevation, providing views in two directions, and remoteness to be out of sight of public and away from walking tracks. • Structure to be designed to be unobtrusive and require minimal site preparation and disturbance to land. • Concern expressed for the impact of archaeological features. • Staff would make an assessment to determine if the proposed site was suitable in their opinion, then advise the Mauao Trust of their views and recommendations.
	Mauao Trust Verbal Report	No update provided by Mauao Trust as no members were in attendance.
	Chairperson's Verbal Report	No update provided by Chairperson.
	Te Pou Takawaenga	Key points: • Mount Spatial Plan pre-engagement with all local hapu and iwi of the moana. Planning to commence early 2023. • Rangatahi climate change conference to be held in February 2023.
	Archaeology Report	Key Points: • A developed research strategy using modern, non-invasive geophysical techniques has deepened the understanding of what is on Mauao, and characterising and understanding

		the extent of Maori on the maunga. The next phase of work is a drone survey of the area. Scientific authority from Heritage New Zealand is required and it was suggested that Mauao Trust be the applicant.
	Operational Report	Key Points: - Summer has seen much higher numbers of visitors and therefore increased activity on the maunga. - Planting of 2000 native plants sourced from Matakana has been completed. - Rat numbers have decreased. 64 copper skinks were released on the maunga, and pest control measures were in place to ensure the skink survival. - There is an active slip at Te Kuia rock. Due to health and safety concerns two seats had to be removed, options were being explored for mitigating risks.
	Annual Information Report	Key Points: - Noted that s 7(2)(f)(ii) accepted a new role and will no longer be the first TCC representative to Ngā Poutiriao ō Mauao in case of Commissioner absence. s 7(2)(f)(ii) is the interim alternate member for TCC. - Craft narrative from TCC on Communications regarding the significance of the archaeological work taking place on the maunga. Work with Mauao Trust on how to do this. - TCC events team requested a workshop with Mauao Trust to ensure alignment between events which take place on or at the maunga and the values of the Trust.
8 February 2023		Due to lack of quorum this Ngā Poutiriao ō Mauao hui was cancelled.
3 May 2023	Public forum	Presentation made to Ngā Poutiriao ō Mauao regarding the Monica Cantwell Memorial Plaque. - Voiced opposition to memorial being removed, and believed that doing so would be disrespectful and wrong. Memorial is site of service held at Mauao annually on 25 November. - It was noted that there was a short discussion about the memorial at a previous Mauao Trust meeting, but no decision had been reached.
	Mauao Trust Report	Mauao Trust, alongside Ngā Poutiriao ō Mauao, have worked to recruit a graduate student to work on Myrtle Rust. Funding for project has been obtained from Zion.

		- Kaitiaki Programme working with s 6 - Maintenance of law and will become a part of the TCC Myrtle Rust project. - Noted a recent visit to Maungatautari to observe their work to introduce plant, bird and mammal species to their forest. - Referenced Kaitiaki programme training as guides for Matariki Celebration in 2023 and upskilling in knowledge of Mauao.
	Chairperson's Report	Noted Strategic Plan presented to Ngā Poutiriao ō Mauao in 2020. Discussed capability of uploading the Strategic Plan to TCC website as well as each iwi website.
	Archaeology Report	- Due to lack of quorum at the November 2022 hui, the archaeologists were invited back to present the finding of their research to date. - Geophysical survey and drone work have been completed, noting that the techniques used are efficient in covering large area with minimal impact. - Explained that the next phase of works would use a UAV drone to create a 3D model of the maunga, ultimately leading to better imagery of Mauao. - Involvement of Tangata Whenua in any excavation works to ensure cultural sensitivity.
	Cultural Heritage Sites Plan	- Noted that Council is preparing a document at the request of commissioners which will showcase cultural heritage sites across Tauranga. - It is recognised that this cannot encompass all cultural heritage sites in the city. - The intent of the document is to highlight and elevate the prestige of Tauranga's important cultural heritage.
	Memorandum of Understanding	- The Memorandum of Understanding (MOU) is due for renewal in 2024. - Explained that the process is collaborative between TCC and the Mauao Trust, and that identification of key points of contact to be involved will help discussions progress smoothly. - It was noted that Mauao Trust will act as a whole.
	Operational Report	- Highlighted a rebound in visitor numbers to Mauao with the return of cruise ships for the 2022/23 season, and noted a plan would be put in place for future track maintenance to account for the higher volume of users. - Noted pest control programme successes and positive trends observed in target populations

		of rabbits and rats. - Removal of track-side Myrtle Rust to decrease chance of accidental propagation through contact with visitors. - A quote is being obtained to remove a further 9 large exotic trees off Mauao, utilising the same helicopter removal process as previous which was highly successful and efficient.
	Update Report	- Noted that TCC representatives to Board is now § 7(2)(f)(ii) in the event that a commissioner is not in attendance. - Highlighted that annual report for 2022/23 would go to Council on 19 June meeting, as no quorum at November or February Ngā Poutiriao ō Mauao hui meant that report information had not been accepted. - Discussed future reporting between Ngā Poutiriao ō Mauao and Mauao Trust. Chair of Ngā Poutiriao ō Mauao to attend Mauao Trust hui. - An action was noted that the Annual Report to Council was due to be written and presented for the June 19 session. It was noted that the lack of quorum at the November 2022 and February 2023 hui resulted in the delay to the Annual Report.

PROJECTS AND ACHIEVEMENTS FOR THE YEAR

9. The Memorandum of Understanding for the Mauao Historic Reserve and the Mauao Joint Administration Board notes that a function of Ngā Poutiriao ō Mauao is to provide information to the Mauao Trust on the achievement of the Mauao Trust Strategic Plan. The table below identifies the ways through which Ngā Poutiriao ō Mauao has supported the Trust to achieve its strategic goals during the period June 2022 to June 2023.

Strategic Goal	Key ways that Ngā Poutiriao ō Mauao has supported achievement of goals
To promote and celebrate Mauao as a foundation of identity and mana of Ngāi Te Rangi, Ngāti Ranginui and Ngāti Pūkenga	- Regular meetings with formal representation and decision making from Ngāi Te Rangi, Ngāti Ranginui and Ngāti Pūkenga and Waitaha-a-hei. - Joint meetings with Mauao Trust. - Ongoing delivery of Placemaking and Interpretation Project with representation from Ngāi Te Rangi, Ngāti Ranginui and Ngāti Pūkenga and Waitaha-a-hei. - Provision of information on Council's website, and proposal for the development of a stand-alone Mauao website in the future. - Ongoing delivery of Te Mahere Whakamahinga o Mauao 2018-28 (Mauao Implementation Plan).
Restore and Protect the health and wellbeing of Mauao for future generations	- Commencement of Te Korowai o Mauao (planting and restoration) Plan. - Significant annual planting.

Protect our cultural heritage sites on Mauao and preserve our knowledge and history of Mauao	• Erosion control through planting, stock management, maintenance of walkways, annual rockfall monitoring programme. • Annual archaeological site monitoring and reporting to assess erosion of historic features. • Pest animal and plant control programme. • Planning trial of native grass with aim to protect cultural and heritage sites. • Erosion control through planting, stock management, maintenance of walkways, annual rockfall monitoring programme. • Annual archaeological site monitoring and reporting to assess erosion of historic features. • Development of Placemaking and Interpretation Project with representation from Ngai Te Rangi, Ngati Ranginui and Ngati Pukenga and Waitaha-a-hei. • Establishment of all year fire ban and elimination of all fire risk species.
Govern effectively through strategic relationships and robust internal processes	• Joint meetings with Mauao Trust. • Workshops with Mauao Trust on significant issues affecting the management of Mauao. • Representation by Mauao Trust members on significant projects. • Ngā Poutiriao ō Mauao regularly seeks advice and approval from Mauao Trust to help them make decisions about the management of Mauao.

TE MAHERE WHAKAMAHINGA O MAUAO: MAUAO IMPLEMENTATION PLAN – KEY PROGRESS AND ACHIEVEMENTS

10. A total of \$3.8 million was approved through the 2021-31 Long-term Plan (LTP) for delivery of the Mauao Implementation Plan.
11. This specifically funds the following projects:

Reference from Implementation Plan	Project Name
F1	Undertake archaeological research
F2	Implement Placemaking and Interpretation Projects
F3	Implement Te Korowai o Mauao Restoration and Planting Plan
F12	Sponsorship Framework Development
S3	Walkway and Seating Plan and Implementation
S5	Waka launching site – investigate options, develop plan and implement
S6	Investigate options to establish a cultural/visitor centre
S7	Investigate and implement digital storytelling
T1	Undertake archaeological research of stone steps
T2	Research stone jetty and establish a repair programme

12. Further information is provided on the Placemaking and Interpretation projects below.

a) Placemaking and interpretation (Project F2)

- A range of projects have been progressing on the maunga, with some works anticipated to be completed before the end of the financial year, while the delivery of other projects will continue into the next year.

b) Completed projects

Signage

- All signage was installed before the end of May. This work was completed ahead of schedule due to contractor availability on Mauao sooner than expected.

Mid Track Seating

- The mid track seating was installed in late May / early June. This work was achieved with minimal public impact in the form of limited seating over the course of a couple days as the new seats were installed.

Summit (phase 2)

- Phase 2 of the summit was completed in mid-June, finalising the cultural compass in advance of Matariki in order to incorporate the summit and compass in this year's ceremonial activities.

c) Projects in Construction

- Te Toka a Tirikawa is due to be completed in July.
- Beach near Te Kawa sculpture installation was programmed for early July, however helicopter availability and unsuitable conditions have pushed this back.
- Karewa Hairpin sculpture installation was programmed for early July, however helicopter availability and unsuitable weather have resulted in delays.

d) Projects in FY24

- A number of elements are scheduled to progress in FY24, including:
 - Nga Kuri a Tarawhata
 - Te Kuia/Te Kauri – stone sculpture and larger works on hold due to instability at the location
 - Tomokaga (Waikorire) and Rangiwhakaoma Tomokanga and Punga – seeking additional funding for these pieces and establishing planning which can be done in the meantime
 - Awaiti – building consent has been approved, subject to resource consent.
 - Water Tank Area – Awaiting resource consent before progressing these works

e) Annual Report

- The Annual Report summarising project delivery for FY 21/22 was prepared and presented to Council at the June 19 session.

Author: s 6 - Maintenance of law

Authoriser: s 7(2)(f)(ii)

PURPOSE OF THE REPORT

1. This report identifies the key operational issues and achievements over the reporting period, May 2023 – July 2023. It identifies up and coming work of interest to Ngā Poutiriao ō Mauao, including ongoing visitor records and an up-to-date events calendar for Mauao.

RECOMMENDATIONS

That the Ngā Poutiriao ō Mauao:

- (a) Receives the Operational Report for July.

DISCUSSION

Visitor Numbers

2. Total visitor numbers:

- Please refer to the appendix for full walkways report. Please note the Oruahine Track data is missing due to an error with the counter. This will have been rectified by the next meeting and a hard copy will be presented.

Volunteer Support

- Volunteer support on Mauao consisted largely of two care groups who service a portion of the bait lines on Mauao. This includes volunteers from Forest and Bird as well as the new volunteers through 'Western Bay Wildlife Trust' (WBWT).

Events

- Events at and around Mauao for the period from August 2023 to December 2023.

Start Date	Description	Anchor Venue
26/08/2023	Mount Maunganui Half Marathon	Mt Maunganui Main Beach (Mauao Base Track only)
21/10/2023	M&M Mental Health Movement - Mt Everest Challenge	Mt Maunganui Main Beach (Mauao Summit)
5/11/2023	Tauranga City to Surf Fun Run/Walk 2023	Mt Maunganui Main Beach (Mauao Base Track only)
18/11/2023	GENX/Marra Tinman Triathlon 2023	Mt Maunganui Main Beach (Mauao Base Track only)
25/11/2023	Mount Maunganui Half Marathon -Postponement Date	Mt Maunganui Main Beach (Mauao Base Track only)
3/12/2023	Te Kaiwhakatere Trailrider Fun Day - International Disability Day	Mt Maunganui Main Beach (Mauao Summit)
26/12/2023	King and Queen of the Mount 2023	Mt Maunganui Main Beach (Mauao Base Track and Summit)

Recent Success

- The may pulse was successfully completed, mice levels resulted in continual bait take even in the final baiting. The next pulse which will start in the second half of August, will utilise Brodifacoum. This pesticide should successfully reduce the high levels of mice as well as the low levels of rats, the use of this pesticide is timed for August/September to give the breeding birds the best possible opportunity.
- The lower summit has been successfully 'capped'. This involved adding and building up material in order to protect the underlying archaeological feature. This area was then re-grassed to add further protection against erosion caused by users.
- All mid and upper track seats have been successfully replaced in conjunction with the project team.
- Approximately 1,200 plants were successfully planted next to walkways on Mauao. This consisted of both contractor and community plantings.

The community plantings were in conjunction with [s 7(2)(a) - Privacy] and his Matariki groups. Six small groups over two days successfully planted Wiwi and Harakeke next to walkways and new signage.

10. Four new walkway counters have been installed and have replaced the older counters with newer technology.
11. TCC has brought the revegetation contract in-house which will now see two revegetation workers working only on Mauao. In time this will be a great advantage as these two workers will spend all their time improving the ngahere of Mauao and not be pulled away to other parts of the city. Furthermore, this will allow myself to embed the expectations and aspirations of Mauao and grow a small team who are passionate and invested in the care of Mauao.
12. The 2023 large tree removal was successfully completed on 25 July. This saw eight exotic trees removed from Mauao utilising the golden standard of heli removal to ensure archaeological protection.

Please see attachment for some pictures.

Planned work for the upcoming period

13. Renew a section of Te Ara Tūtanga (Base Track).
14. Undertake rock stability monitoring.
15. Complete a new rabbit control contract.
16. Undertake a follow up pampas control operation. This may utilise an agriculture drone instead of a helicopter due to the large reduction in pampas from the previous two operations.
17. Survey the planting areas from the past three years and identify areas in need of infill planting.
18. Undertake August/September pest animal control pulse.
19. Undertake pre and post pest animal monitoring relating to the pulse.
20. Continue to work with Kia Maia to help facilitate the Trusts Myrtle Rust Research.

Ongoing maintenance

21. Ongoing maintenance continues on the following aspects of the reserve:
 - Pest plant and animal control;
 - Stock and pasture management;
 - Walkway maintenance;
 - Sign and structure maintenance;
 - Motu Kauri track maintenance.
