Dear [Redacted] s 7(2)(f)(ii) - Protection of public officials

**Mount Maunganui Firefighting Watermain - Contract No TC 76 /05  
Watermain Realignment**

Confirming discussions held at our meeting yesterday.

Resource Consent was granted on 30 March 2005 to construct a fire fighting watermain on the side of Mount Maunganui. The Commissioner's decision approved the pipe alignment shown on drawing 10920 FM03 A3.

A site inspection of the proposed pipe alignment has raised the question of changing the alignment slightly to protect Pohutukawa trees, and avoid rocks. The proposed realignment will be over a length of approximately 160m and will be through the motor camp below the terraced tent sites. Both the consented and proposed realignments are shown on the attached drawing 120311 FM03 A3, dated 23 September 2005.

We have spoken with the Historic Places Trust [Redacted] s 7(2)(a) - Privacy who are in favour of the proposed realignment and do not consider any change to their Authority necessary.

We understand you will confirm the following with Council's Senior Planner, [Redacted] s 7(2)(f)(ii) - Protection of on Monday:

- A variation to the approved conditions of consent is required.
- A decision on this variation does not need to be referred to an independent commissioner.
- Potentially affected parties are limited to those representatives on the Mauao Steering Group, with whom we will undertake consultation.

Tauranga City Council is about to let the tender for construction of the watermain, could you therefore provide this confirmation on Monday 26 September, to enable consultation to begin and the variation to be processed prior to construction of the portion watermain to be realigned.

Yours faithfully  
**Harrison Grierson Consultants Limited**
